

# NAVEEN VELUSAMY

**Senior Platform Engineer | Azure and Kubernetes | SRE | Infrastructure Architecture and Automation**

Bengaluru, Karnataka | +91 805 650 7858 | naveenveluchami@gmail.com | linkedin.com/in/naveen-velusamy

## PROFESSIONAL SUMMARY

Platform and infrastructure engineering professional with 13+ years of experience specializing in Azure, AKS, Kubernetes, Terraform, and production reliability. Experienced in designing platform solutions, standardizing infrastructure automation, strengthening observability, and resolving complex production incidents. Strong Linux foundation with earlier delivery of large-scale AWS migration and CI/CD modernization programs.

## CORE EXPERTISE

**Azure and Platform:** Azure, AKS, Kubernetes, Azure DevOps, Azure Pipelines, platform engineering, cloud governance

**Infrastructure and Delivery:** Terraform, OpenTofu, Helm, Crossplane, Docker, GitLab CI, Jenkins, Ansible, Git

**Reliability and Observability:** SRE practices, Prometheus, Grafana, Mimir, Loki, Azure Monitor, alerting, RCA, on-call operations

**Networking and Scaling:** Istio, ingress, service mesh, multi-cluster networking, KEDA, workload scaling, certificate management

**Automation and Systems:** Python, Linux, RHEL, CentOS, Ubuntu, Bash, Azure Service Bus, Cosmos DB, PostgreSQL

## PROFESSIONAL EXPERIENCE

### Senior DevOps Engineer | Alegeus Technologies

Nov 2021 - Present

Bengaluru, India

- Engineer and operate enterprise Azure platforms using AKS, Kubernetes, Terraform, Helm, and Azure DevOps, with ownership across reliability, security, automation, and production support.
- Drive platform architecture and technical POCs for multi-cluster Kubernetes, Istio service mesh, external control planes, east-west routing, certificate management, workload federation, and modern ingress patterns.
- Build reusable Terraform and Helm components and standardize CI/CD guardrails across development, QA, UAT, and production environments.
- Introduced Helm unit testing into pull-request pipelines and established automated validation coverage across 42 chart templates, strengthening release confidence and consistency.
- Develop Python automation and internal tooling for operational workflows, cloud-cost reporting, Azure Service Bus integrations, metrics exporters, and platform insights.
- Improve platform observability with Prometheus, Grafana, Mimir, Loki, Azure Monitor, and actionable alerting; troubleshoot complex application, ingress, networking, and infrastructure incidents.
- Evaluate and implement platform capabilities including KEDA autoscaling, Crossplane, Velero, OpenCost, and Kubernetes upgrades while balancing security, reliability, cost, and operability.
- Provide technical guidance during production changes and incident response, perform root-cause analysis, contribute to engineering standards, and support 24x7 platform availability.

### Senior SysOps Engineer | Tata Consultancy Services

Apr 2016 - Nov 2021

Bengaluru, Karnataka

- Led migration of 1,000+ on-premises Linux servers to AWS as a core member of a 10-engineer cross-functional team.
- Architected a centralized, highly available Jira platform for 20 operating companies using CloudFormation, ALB, Auto Scaling, Aurora PostgreSQL, and GitLab.
- Delivered an end-to-end CI/CD platform for a global Linux repository serving 29 operating companies using Ansible, GitLab, Jenkins, SonarQube, and CloudFormation.
- Automated DNS operations with CloudWatch, Lambda, and DynamoDB and integrated Splunk monitoring with ServiceNow for automated ticket creation.
- Administered enterprise Linux estates across RHEL, CentOS, and Debian, covering storage, patching, security controls, Apache, Tomcat, and production troubleshooting.

## EARLIER EXPERIENCE

### **Linux Technical Engineer | NTT Data Global Delivery Services**

**Jun 2013 - Mar 2016**

*Bengaluru, Karnataka*

- Supported 24x7 Linux infrastructure for Morgan Stanley data centers using IBM Tivoli Netcool and Nagios Opsview.
- Provisioned and maintained RHEL, CentOS, and Debian servers, including Apache and Tomcat application services.
- Executed monthly patching, backup and recovery activities, and participated in global disaster-recovery exercises.

### **System Administrator | Samagra Info Solutions**

**Jan 2013 - Jun 2013**

*Bengaluru, Karnataka*

- Configured and maintained office printers, Wi-Fi networks, and LAN connectivity while resolving day-to-day desktop, system, and network issues for users.
- Configured and supported MySQL database replication and Linux-hosted Apache environments for internal applications.
- Managed SVN repositories and performed routine Linux system administration, user-access configuration, and infrastructure troubleshooting.

## SELECTED LEADERSHIP AND PLATFORM CONTRIBUTIONS

- Architecture and modernization: Support hands-on design decisions across AKS, service mesh, ingress, autoscaling, backup and recovery, infrastructure provisioning, and cloud governance.
- Engineering enablement: Build reusable automation, pipeline standards, Helm validation, and platform tooling that improve consistency across application teams and environments.
- Reliability ownership: Lead technical diagnosis across Kubernetes, networking, observability, scaling, and application delivery layers; translate incident findings into lasting platform improvements.
- Technical evaluation: Run structured POCs and upgrades for emerging platform technologies, documenting constraints, operational impact, and production-readiness considerations.

## CERTIFICATIONS

**Certified Kubernetes Administrator CKA | Red Hat Certified Engineer RHCE | Red Hat Certified System Administrator RHCSA**

**AWS Certified SysOps Administrator Associate**

## RECOGNITION

- Spot Award - automated Azure self-hosted agent deployment using infrastructure as code for Azure Pipelines.
- Employee of the Quarter - Jira and Confluence high-availability architecture.
- Best Process Improvement Team - CI/CD migration initiative.

## EDUCATION

**Master of Computer Applications | Hindusthan College of Engineering and Technology, Coimbatore | 2009 - 2012**

**Bachelor of Science in Computer and Information Sciences | K.S.R. College of Arts and Science, Tiruchengode | 2006 - 2009**
